

Invitation à une activité de formation continue

Titre : Family Medicine Rounds

No d'activité : 95218

Date : mardi le 10 juin 2025

Lieu : Centre médical Brunswick

Coordonnées : RESERVED for general practitioners and other healthcare professionals of the "CIUSSS of the WEST of Montreal Island". Fees apply to non members of the AMOM for training sessions of 3 hours or more.

Objectifs

By the end the conference, the participant will be able to:

Glucose Monitoring in Type 2 Diabetes for the Family Doctor

1. Understand the advantages and disadvantages of different methods of glucose monitoring, including A1C, fasting blood glucose, oral glucose tolerance tests, Blood Glucose Monitoring and glucose sensing technology;
2. Compare the different glucose sensing technologies available, how to prescribe and use them, and address public and private insurance coverage;
3. Interpret the data provided by continuous glucose monitoring, such as Time In Range and Ambulatory Glucose Profile;
4. Apply interventions, both pharmacological and non-pharmacological, that improve glycemic control based on patient cases.

Weight Wise: Understanding and treating obesity and its medical and surgical management

1. Diagnose obesity and discuss its potential complications as a chronic illness;
2. Analyze the role and effectiveness of lifestyle interventions, pharmacotherapy, and surgery in the treatment of obesity and its comorbidities, with a special focus on class 3 obesity;
3. Compare and contrast the various types of bariatric surgeries and their risks and benefits;
4. Diagnose and treat post-bariatric surgery complications, in the short and long term and prevent and treat weight regain post bariatric surgery.

Président de séance : Dr. Barbara Hogenbirk
